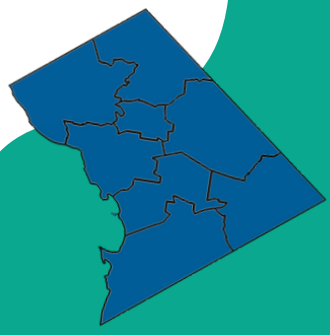
OUT-OF-SCHOOL-TIME IN THE DISTRICT

Out-of-school-time (OST) activities, including afterschool and summer programs, provide important **educational, social and emotional, and developmental benefits** to youth. When youth have safe, positive, and enriching places to spend their time outside of school, families and communities also thrive. The latest data and research shows where in the District OST opportunities are most abundant, and where more funding and resources are needed to expand access. Visit wearedecaction.org/OST to learn more and join our collaborative work toward universal OST in the District.



Youth Demographics*
